

Inventory Control and Sales Management with Barcode Scanning On The Go!

HandiFox™ is an award-winning mobile inventory tracking and sales management software solution seamlessly integrated with QuickBooks. The app allows small businesses to automate their sales and supply chain pipeline administration and have comprehensive inventory control. The solution presents a robust set of features and intuitive interface on an easy-to-use mobile platform (Android or Windows Mobile) with a scanner.

A 2016 Sleeter Awesome Apps Award Winner, HandiFox™ Desktop offers two versions
HandiFox™ Inventory and HandiFox™ Sales

The **Sales version** is a full-featured version that helps small and mid-size companies to extend their sales control beyond the office.

- Create, view and edit customers on the mobile device
- Enter sales orders and invoices
- Capture customer signatures on invoices
- Receive payments and track received payments against invoices and accounts
- Picking and Packing of sales orders and invoices
- Enter sales receipts and credit memos
- Scan item barcodes for quick entry on transactions
- Print sales orders, invoices, receipts, and other transactions right from the mobile device
- Receive inventory
- Inventory counting

Have clients looking for
a system like ours?
Check out our partner program!

We have a lower cost **Inventory version** which allows you to use barcodes, receive inventory and do inventory counting.
