

## What is HandiFox?

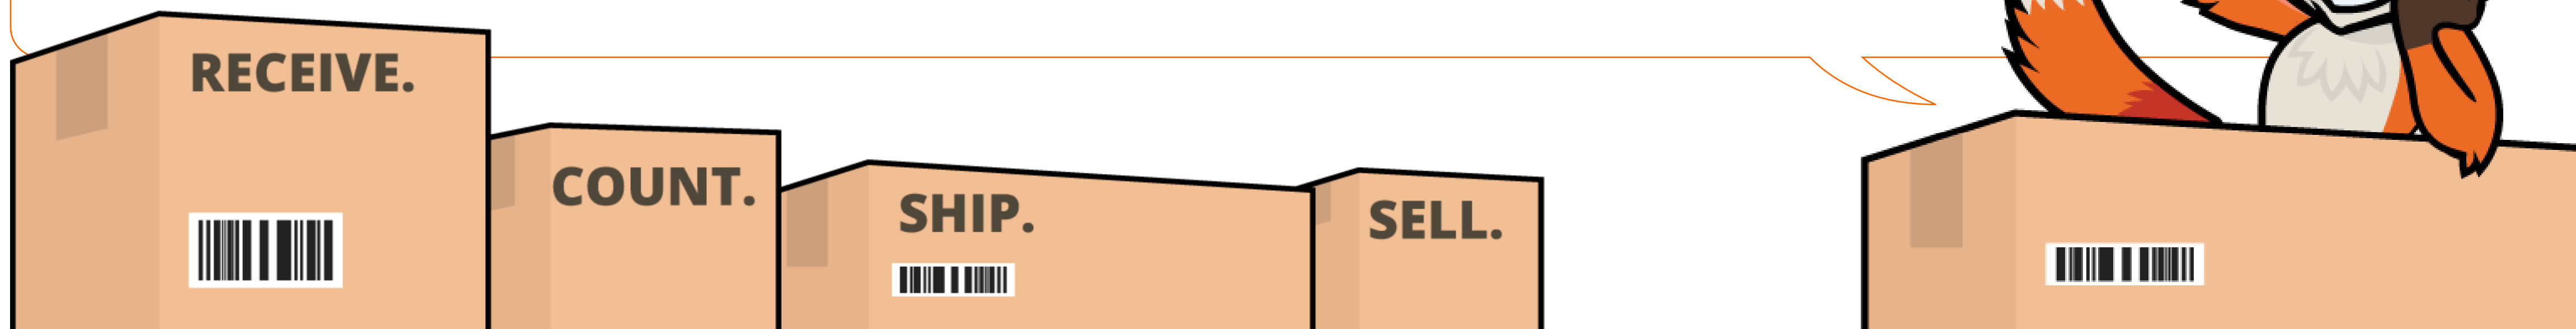

HandiFox is a product family of inventory management tools which automate inventory control, order fulfillment and sales processes for small businesses using QuickBooks Desktop or QuickBooks Online.

The HandiFox product line also features a Solo edition which works as a standalone inventory control system.

### HandiFox software tools incorporate a wide range of features:

- Seamless two-way synchronization with either of QuickBooks versions
- Warehouse and sales operations on mobile devices
- Multi-location inventory tracking and transfers
- Purchasing, replenishment and stock receipt
- Barcode-enabled item selection, lookup, stock receipt, counting, picking/packing
- Invoicing and field sales
- Backordering
- Serials/lots/expiration date
- Reporting
- Inventory/non-inventory/service items
- Multiple currencies
- Wireless printing
- Data import/export

HandiFox has been shaped by the experiences of hundreds of small businesses worldwide over the past 10 years.

## Why partner with HandiFox?

Partner with a trusted software vendor to get:

**A choice** of partnership options for however you wish to be involved: referral or sales programs

**A business tool** that will expand your consulting practice by winning and retaining clients for whom it is the right fit

**Free** demo, training, promotional materials, educational resources, and a fully-functional HandiFox copy/account for real-life demonstrations

**A voice** communicating client needs and feature requests. Grow as an inventory expert through strategic insights gained while working with HandiFox

**New revenue streams** — on-going commission and reseller discounts

**Continuous feedback**, technical/sales support and advice for your clients from the permanent inside contact and the 5-star rated support team

## What businesses is HandiFox best suited for?

HandiFox is a great fit for micro and small businesses with multiple geographically distributed storage facilities including permanent warehouses and trucks. Most of our clients are QuickBooks users (either Desktop or Online, sometimes hosted Desktop) but we do have those who use HandiFox as a standalone inventory management solution rather than as a QuickBooks add-on.

We serve a wide variety of industries from **Food & Beverage** to **Auto Parts companies**, wholesalers, distributors, and service providers like interior design companies, a/c repair/installation and various contractors.

Thanks to the integration with Shopify, HandiFox is instrumental for businesses selling online.

## What are my next steps?

- 1**  
Choose your commission program (Referral or Reseller)
- 2**  
Fill the registration form on our website
- 3**  
Sign the paperwork and get access to Partner Portal

**Partner Portal is a quick way to register your leads or simply get a referral link to place on your website**

Referral links record visits from your website and help our sales team stay up-to-speed on your lead pipeline
